ANSWER: **90** degrees

19. This president sent troops to clear out the Bonus Army. Homeless people built communities named after this president after the Great Depression occurred during his term in 1929. For 10 points, name this president whose term also included the beginning stages of building the dam named for him.

ANSWER: Herbert **Hoover**

20. This molecule contains four nitrogenous bases including thymine and adenine. This molecule's shape is a double helix. This molecule can condense into chromosomes. For 10 points, name this molecule that holds genetic information and is often abbreviated from deoxyribonucleic acid.

ANSWER: **DNA** [accept **deoxyribonucleic acid** before mentioned]

TB. This book's inspiration was an experiment led by John B. Calhoun in Maryland. In this book, Mr. Ages and Jeremy try to help the protagonist move her house and her son Timothy before the spring plowing of the garden. For 10 points, the title character helps distract Dragon the cat in, this book by Robert C. O'Brien.

ANSWER: ***Mrs. Frisby and the Rats of NIMH***

BONUSES

1. This constitutional amendment is nearly identical to the 15th amendment. For 10 points each:

[10] Name this amendment, ratified in 1920, that gave women the right to vote.

ANSWER: nineteenth (19th) amendment to the U.S. constitution [accept nineteen]

[10] The amendment was strongly supported by this U.S. president at the time.

ANSWER: Woodrow Wilson

[10] The nearly identical 15th amendment protected the right to vote based not on gender but on what other characteristic?

ANSWER: race [accept color; also accept "previous condition of servitude" or equivalents such as whether or not someone had been enslaved]

2. COMPUTATION: James needs to know how much sleep he will get if he goes to sleep right now. His alarm is set to 5:30 AM tomorrow, and it is 10 PM right now. For 10 points each:

[10] How many hours of sleep will James get if he goes to sleep right now?

ANSWER: 7 1/2 hours of sleep (accept 7.5 hours of sleep)

[10] James usually gets 90 points per game at a quiz bowl tournament if he gets 9 hours of sleep. If the proportion doesn't change, how many points can he expect to get on his 7.5 hours of sleep?

ANSWER: 75 points per game

[10] James oversleeps and doesn't arrive at the tournament until 9:30. Each round takes 30 minutes, and the tournament started at 8:00. How many rounds did he miss?

ANSWER: 3 rounds

3. The Sieve of Eratosthenes can be used to find these numbers, of which 2 is the only even one. For 10 points:

[10] Name this kind of number whose only factors are one and itself.

ANSWER: prime numbers

[10] This kind of number is not prime, and has additional factors other than one and itself. The number one is neither prime nor this type of number.

ANSWER: composite number

[10] This is the next prime number after 31.

ANSWER: 37

4. This character's family was cursed by Madame Zeroni. For 10 points each:

[10] Name this character sent to Camp Green Lake after being accused of stealing Clyde Livingston's shoes.

ANSWER: Stanley Yelnats IV [accept either underlined name; accept Caveman]

[10] In another book series by the same author, this school is home to Louis the Yard Teacher and Mrs. Jewls, who teaches on the 30th floor.

ANSWER: Wayside School

[10] *Holes* and the *Wayside School* series were written by this author.

ANSWER: Louis Sachar

5. A fire requires a fuel source, sufficient heat and this substance. For 10 points each:

[10] Name this element, one atom of which is found in water.

ANSWER: oxygen

[10] This form of oxygen consists of three oxygen atoms bound together. It is measured in Dobson units.

ANSWER: ozone

[10] Oxygen makes up about 21 percent of this protective layer of gases surrounding the earth.

ANSWER: atmosphere

6. For 10 points each, answer some questions about an art medium created by Joseph Niepce *[nyeeps]*.

[10] This art medium was used by Mathew Brady during the Civil War. Brady carried around a mobile darkroom along with his camera.

ANSWER: photography

[10] Another famous user of photography was Ansel Adams, who used it to create beautiful landscapes like *Moon and Half Dome* in this California national park.

ANSWER: Yosemite National Park

[10] Digital camera quality is often given in the “mega” version of these units, the smallest individual pieces of a digital image.

ANSWER: pixels [accept megapixels]
